

*The Leader in Cloud-based
Catering Management*

Same solution.
Same service.
Same people.

New name.

PAXIA 

Who We Are

Trusted by the world's leading airlines

You probably know us by our old name, eGate Solutions. Today, we offer the same catering operations solutions, with the same commitment to exceptional service and the same industry expertise in the people developing and supporting our products. We just have a new name now—**Paxia**—and we are the leader in cloud-based airline catering management solutions.

For 20 years, global airlines of all sizes have counted on our catering operations products and expert service teams.

Paxia Benefits

Paxia Solutions

Trusted by the world's leading airlines, Paxia's cloud-based Catering Management Solutions support all sizes of airlines and deliver the level of quality, automation, and control required by you—adapting to your systems, processes, and business initiatives. Our products and services simplify the complexities of catering management by allowing better planning and more automation, giving you a better ROI and ultimately, positively impacting your bottom line.

Paxia IFX

Ensure a single source of truth and reduce complexity

From pre-flight, to day-of and post-flight operations, our cloud-based Paxia IFX gives you real-time visibility to plan, deliver, monitor, adapt, and report on all the services you manage for every flight, every day.

Paxia GP

Optimize loading and fuel savings from warehouse to plane

Our cloud-based Paxia GP is an easy-to-use galley planning, ordering, and scheduling solution. It is your vendor-sharable portal for your galley designs, loading plans, equipment inventory/balancing, and entire supply chain.

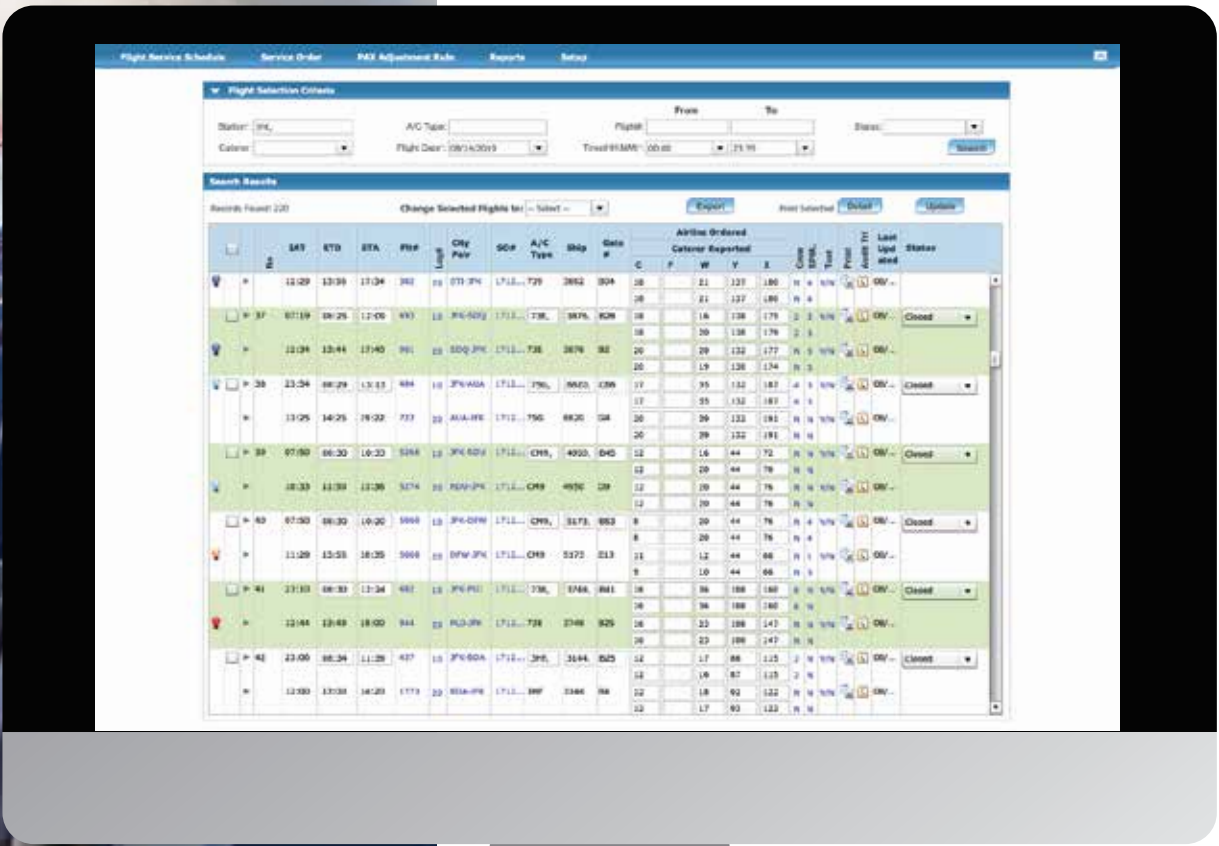

Paxia Services

Gain total peace of mind

Our 24-hour/day expert services team has seen it all. We hold your hand every step of the way to ensure you have an exceptional customer experience. Paxia provides worldwide coverage everyday so you don't have to worry about your onboard catering management. Ever.

PAXIA 

Paxia IFX

Paxia IFX, or Inflight Exchange, is a cloud-based catering management solution that provides you with a holistic view of your entire onboard services processes from the warehouse to day-of operations.

- Simplify catering management
- Reduce errors, waste, fuel burn, and billing discrepancies
- Improve collaboration, responsiveness, reporting, and satisfaction

The Premier Solution for Managing the Complete Onboard Services Process

Paxia GP

Paxia GP, or Galley Planning, is a cloud-based galley planning, ordering and scheduling solution that creates an easy-to-use, shareable and real-time source of an airline's galley designs, loading plans, equipment inventory/ balancing, and supply chain,

- Reduce your dependence on error-prone spreadsheets and increase accuracy, improve performance, and save time & money
- Enable better planning and optimize how you load, adjusting as factors or business demands change
- Reduce waste, increase fuel savings and satisfaction

The Market Leader in Galley Planning Software

Paxia Services

Optimizing the way you do business

Implementation

Get a proven project team built on experience

Our experienced implementation team comes onsite to give you the best customer onboarding process imaginable. Your project team consists of subject matter experts (SMEs), trainers, and access to Paxia's R&D team to ensure a seamless integration with your and your vendor's systems.

Tailored to your requirements, implementation engagements vary in length and customization. Whatever your needs, Paxia is here to help you throughout the entire process to ensure your catering management solution is running at optimal levels.

Support

We are always here for you

Our 24/7, 365 days-a-year, fully trained support team is always available should the need arise. We understand that there is no issue that doesn't need our attention. We recognize that our catering management systems are critical to your business operations, so we offer Tier 1, 2, and 3 level support—from Service's help desk and Subject Matter Experts (SMEs) to Development's programmers and database/infrastructure admins—our teams are on call and ready.

No matter where you are in the world or what time of the day it is, we are here to give you exceptional customer support.

Consulting

Bespoke solutions, your way

We know that every business operates differently. That's why our consulting specialists are ready to provide expert guidance and/or custom work to ensure that our solutions bring the greatest benefit to your business processes and systems.

Our consultants are experts in their field. They are available for varying lengths of engagements, depending upon your particular needs.

Get the catering management solution that works the way you do.
